

Pony Club

Pony Club is an International Voluntary Youth Organisation established in Britain in which young people are encouraged to ride and learn to enjoy all sports connected with horses. The organisation does this by providing instruction in riding and horsemanship, as well as the proper care of their animals.

The Pony Club carries out various activities such as rally days, gymkhanas, camps, trail rides, lectures and films, visits to places of interest and demonstrations, instructors' schools, regional schools and state training squads. Contact Pony Club Australia to learn more about this organisation.
