# STANDARD OF EXCELLENCE

## 1. STANDARD OF EXCELLENCE

- 1.1. The following "Standard of Excellence" is based on the original ASHS description of 'The Australian Stock Horse' from 1971.
- 1.2. Head alert and intelligent with broad forehead, full, well-set eyes, wide nostrils. A fine, clean gullet, allowing plenty of breathing room.
- 1.3. A good length of rein, well set into the shoulder.
- 1.4. Sloping shoulder, not too heavily muscled, a well-defined wither slightly higher than the croup.
- 1.5. Deep chest, not too wide in proportion, but showing plenty of heart room.
- 1.6. Ribs well sprung and back strong and of medium length in proportion.
- 1.7. In forelegs, forearms well developed, cannon bones slightly flat, pasterns short and slightly sloping.
- 1.8. Hindquarters strong, rounded and well-muscled, nicely sloping to give a full line from croup to hock. Hocks broad, flat and clean, the cannon relatively short with well-defined tendons. The hind legs well under when standing.
- 1.9. The Hooves hard and in proportion to the size of the horse, with a wide heel and feet straight.
- 1.10. The whole of these component parts to be in balance according to the size.
- 1.11. Preferred heights between 14 and 16 hands.
- 1.12. A painting of the Standard of Excellence has been commissioned and it hangs in the boardroom at Head Office. A painting can also be viewed on the Australian Stock Horse Society's website at [www.ashs.com.au](http://www.ashs.com.au).

# CONFORMATION

## 2. DESIRABLE CHARACTERISTICS

- 2.1. Good conformation is where function and appearance are seen to be in harmony. Desirable characteristics for Australian Stock Horses are as follows:
- 2.2. **Head** - The head should be proportionate in size, well set, hard and clean-cut. The muzzle should be neat, the lips firm and even, the nostrils big and soft and the front line of the face almost straight. The forehead should be broad, with the eyes clear, prominent and set well apart. The cheeks should be free from fleshiness, with plenty of room between the branches of the jaw and the width from the gullet to the poll. The width between the ears should be clean-cut. Overall the horse should appear alert and with a kind, intelligent expression.
- 2.3. **Neck** - Good length of rein, well set into the shoulders and slightly arched.
- 2.4. **Shoulders** - The shoulders should be flat, long and sloping back, so that the saddle is carried behind and not over the forelegs. The shoulders should slope into a well-defined wither.
- 2.5. **Wither** - The wither should be slightly higher than the croup and extending well back, giving plenty of length from the mouth to the wither. (Known as a "good rein").
- 2.6. **Chest** - The chest should be muscular, but not too wide, as width will cause the horse to roll in his action.

### **ASHS – EVENTS RULES & REGULATIONS**

*Conformation, Movement, Tack and Attire*

*Section 3 V4.2 – Page 2*

- 2.7. **Ribs** - The ribs should be well sprung, of medium length, and carried well back. There should only be a short space between the last rib and the point of the hip.
- 2.8. **Back** - The back should be short, well-muscled, strong and horizontal.
- 2.9. **Loin** - The loin should be short, wide and well-muscled.
- 2.10. **Forearms** - Forearms should be rather upright, muscular and well developed.
- 2.11. **Knee** - The knee should be big and clean cut and, the back should stand well out.
- 2.12. **Cannon Bone** - The cannon bone should be strong and clean-cut and relatively short and when compared with the forearm and the back tendons should stand well out from and parallel to the bone pasterns, i.e., not too long and slightly sloping. The tendons and ligaments should be well defined and free from any thickening or puffiness.
- 2.13. **Fetlock** - The fetlock joint should be clean-cut, big and strong and free from any puffiness.
- 2.14. **Pastern** - The pastern should be strong and free from any bony growth such as ringbone. The pastern acts as a spring – if the pastern is too straight it jars the leg, if too long, it is weak and puts too much strain on the back tendons.
- 2.15. **Hock** - The hock should be large, strong, clean-cut and well defined. The horse should stand straight when viewed from behind or, to the side. Hocks with too much bend are a weakness known as sickle hock.
- 2.16. **Gaskin** - The gaskin should be powerful, with plenty of width to give it strength. The distance from the stifle to the hock should be long compared with that from the hock to the fetlock.
- 2.17. **Thigh** - The thigh should be rather upright, well covered with muscles, wide and powerful.
- 2.18. **Croup** – Commonly known as rump, lies between the loin and the tail. The rump should be long and muscular, with an adequate slope - a slight dropping is not a defect.
- 2.19. **Hoof** - The hoof outline on the ground surface should be almost round in the front feet and more oval in the back feet. They should be proportionate in size to the weight of the horse, rather bigger in the front than the hind as the front legs carry the larger part of the weight.
- 2.20. **Tail** - Size and substance of the tail should be in proportion to the horse's conformation, which is a good indication of the metabolism of the horse. Allowances should be made where tail loss has occurred accidentally.
- 2.21. **Temperament** - Quiet and intelligent with the ability to relax after competition.
- 2.22. **Athletic Ability** - Agility is desirable.
- 2.23. Allowances should be made for **minor blemishes** due to previous injuries – provided they are not breeding defects.
- 2.24. The whole body to be **balanced** according to the size of the horse.

### 3. POINTS OF HORSE

## MOVEMENT

### 4. STANDARD PACES

- 4.1. For more detailed definitions of paces and movements please refer to Federation Equestre Internationale (FEI) Rules for Dressage Events (Equestrian Australia – EA).
- 4.1.1. **Walk** - A four beat pace with regular rhythm, light rein contact and soft frame. Hind feet should come in front to the track of the front feet. NO jogging or ambling.
- 4.1.2. **Trot** - A two beat pace with regular rhythm. Feet move in diagonal pairs and hind feet come close to, or in front of the print of the front feet.
- 4.1.3. **Canter** - A three beat pace with regular rhythm. No running. Horse should lead with the inside foreleg, with the outside fore and inside hind moving together as a diagonal pair; if not the horse is disunited/cross firing.
- 4.1.4. **Gallop** - Is an increased canter as the horse lengthens his stride and stretches himself into a gallop; the pace becomes a four beat as the diagonals split. The horse should show speed with calmness and control.

### ASHS – EVENTS RULES & REGULATIONS

*Conformation, Movement, Tack and Attire*

Section 3 V4.2 – Page 4

## 5. VARIATION OF PACES

- 5.1. **Slow** - Slower rhythm, shorter stride, impulsion maintained.
- 5.2. **Medium** - Normal travelling speed, well balanced.
- 5.3. **Fast** - Faster rhythm, longer stride, horse should be visibly working to maintain its balance in a circle.
- 5.4. **Extended** - Rhythm should be maintained at medium pace, stride should be lengthened to cover more ground.
- 5.5. **Collected** - A horse should work on a light rein with a soft responsive mouth, with its nose angled slightly in front of vertical. Collection implies that a horse will carry itself in frame by engaging its hindquarters and whilst maintaining a lightness and mobility of the forehand with only light contact through the bit.

## 6. CLARIFICATION OF TERMS

- 6.1. **Halt** – Coming down through transitions. Not abrupt but obedient.
- 6.2. **Stop** - An immediate cessation of forward movement where a horse will elevate slightly in front prior to engaging hindquarters to come to a controlled yet complete stop in a short distance.
- 6.3. **Settle** - Stand still and relax.
- 6.4. **Rein Back** – Two time diagonal movement, the horse shall begin the back-up in a controlled and willing manner and shall continue to back-up without hesitation until directed to stop by the rider.
- 6.5. **Light Rein** - Reins lengthened to allow horse to move freely with light contact only.
- 6.6. **Loose Rein** - Sufficient length of reins to allow more slack than a horse can take up.
- 6.7. **Long Rein** - Reins are lengthened to allow the horse to stretch his neck and take up the slack.
- 6.8. **Working Canter** – A three beat pace, free going and calm, exhibiting a degree of collection.
- 6.9. **Hand Gallop** - A controlled four beat pace, not a fast gallop. Riders seat out of saddle.
- 6.10. **Simple Change Walk Through** – Through the walk, horse obtains true flat walk for four walk steps. Calm, smooth and straight upward transition
- 6.11. **Simple Change** – Through the trot, canter down to trot for three well defined trot steps.
- 6.12. **Flying Change** - Change of leads at canter in a single stride in air, calmly, smooth and straight, in both hind legs and front.
- 6.13. **Haunch Turn** – A turn in a continuous motion where the energy of the horse is not stopped but is redirected in the opposite direction. The horse begins to turn at the same time as it begins to cease forward motion, taking most of the weight on the inside hind leg which becomes the pivot point for the body while the other legs propel the horse with forward impulsion as it turns and moves out in the opposite direction close to the line of entry. Horse must turn towards the Judge.
- 6.14. **Roll Back** – The horse comes to a complete stop engaging both hind legs, only then does the horse turn 180 degrees over its hocks, moving out on the same line as it entered. Horse must turn towards the Judge.
- 6.15. **Spin** - A movement of 360 degrees or more. Spins should be executed in the same area with minimal movement. Spins shall be smooth and fluent.
- 6.16. **Pivot** - Halt, turn slowly on hind feet, usually through 90 degrees.
- 6.17. **Side Pass** - At walk, lateral pair of feet step to the side one step, the other pair cross over to make a second step. Note: Should always be from a halt.

### **ASHS – EVENTS RULES & REGULATIONS**

*Conformation, Movement, Tack and Attire*

*Section 3 V4.2 – Page 5*

- 6.18. **Forehand Turn** - From halt, hind feet move to describe a circle around the front feet, which mark time on the spot. In a turn to the right, the horse's head looks to the right and swings that way as his hind feet move to the left.
- 6.19. **Fall** – A fall of a horse or rider during a workout will result in disqualification
- 6.20. **Jig Jogging** – Is a break of gait and not a four beat walk
- 6.21. **Circles** - Unless otherwise specified a circle is approximately 20 metres in diameter. A small circle is 10 metres in diameter. A horse must bend its body and flex its neck to follow the line of the circle; i.e., look where it is going and be balanced.
- 6.21.1. **Circles** are a controlled manoeuvre in the designated area of the arena. Right and left circles should have a common centre line in the middle of the designated area. Circles shall be ridden and started on the correct lead or diagonal. When of the same pace, the speed and size of the right circles shall be exactly the same as the speed and size of the left circles. The horse's gait should appear to be even and fluent, without heavy rider contact and obvious commands. Circles shall be ridden far enough from the arena wall that it does not affect the circles. The horse should be correctly bent and maintain its balance without falling in or drifting out.
- 6.22. **Figure of Eight** - Two equal circles on opposite reins – starting, changing rein and finishing at the same point in the middle of the working area. After completing the last figure of eight and unless instructed otherwise by the Judge, competitors should change rein and continue with a half circle in the opposite direction and return to the Judge.
- 6.23. **Markers** - When using patterns from the ASHS Pattern Book, markers may be used at the Judge's discretion. If markers are used, transitions and turns must be beside the marker with rider's saddle girth in line with the marker on its execution. Haunch turns and Roll Backs that are executed across the patterns should be done on the judge's side of the marker. Centre Marker to be on the inside of the forthcoming circle.

# TACK AND ATTIRE

## 7. GENERAL PRESENTATION

- 7.1. Presentation of horse as follows:
  - 7.1.1. The horse, at the very least, should be clean.
  - 7.1.2. The horse's chin, ears, legs, mane and tail should be trimmed or be neatly presented.
  - 7.1.3. In Led and Hack classes, bandages and boots are not permitted.
  - 7.1.4. False tails are permitted.
- 7.2. Presentation of tack as follows:
  - 7.2.1. Tack does not have to be new or extremely expensive. Older tack, well cared for, usually looks and fits better.
  - 7.2.2. Ensure that the tack is correctly fitted and does not rub or disturb the horse.
  - 7.2.3. Make sure the tack used is suitable for the event.
  - 7.2.4. Show Whips are permitted for Led, Hack & Dressage being no longer than 1m in length. Working or Time Trial classes are NOT to use a show whip however a Stock Whip may be carried as required.
- 7.3. Presentation of handler or rider as follows:
  - 7.3.1. The handler or rider's attire should be neat – understated dress always gives a more professional appearance. The handler or rider who conveys a neat, workmanlike impression will probably score higher in the Judge's initial mental assessment than that of a less tidy or flamboyant combination.
  - 7.3.2. The handler or rider's attire should be suitable for the type of class in which the combination is competing.
  - 7.3.3. Jewellery is out of place in the show ring and can be dangerous. If you must wear earrings, the tiniest of plain, discreet studs only are suitable.
  - 7.3.4. The handler/rider should have neat and tidy hair.
- 7.4. When competing in Led ASH and ASH Hack classes, the horse and handler/rider may be presented in either the Australian Stock Horse style or the English style, unless stipulated otherwise on the programme. In Working ASH classes, the horse and rider must be presented in the Australian Stock Horse style.

# LED ASH CLASSES

## 1. LED CLASSES

- 1.1. Horses in Led ASH classes are assessed on their type, conformation, temperament, movement/balance, soundness and presentation (the Standards of Excellence). The horse should show the qualities and type that define the breed. The horse's body should be balanced in accordance with the size of the horse and it should possess a calm temperament and good nature.
- 1.2. The objectives of Led ASH classes are to provide opportunities for members who currently own or breed Australian Stock Horses, to compare their horse's conformation, temperament and movement. The aim of Led ASH classes is to promote good conformation, movement and temperament, as well as good horsemanship and showmanship skills.

## 2. TYPES OF CLASSES

- 2.1. Committees should set classes to suit the majority of Branch members. A suggested break-up of classes is as follows:
  - 2.1.1. AGE Yearling, 2 yrs old, 3 yrs old, 4 yrs old, 5 yrs and Over.
  - 2.1.2. SEX Filly, Colt, Mare, Stallion, Gelding.
  - 2.1.3. HEIGHT 15hh and Under, Over 15hh.

## 3. COMPETITION STYLES

- 3.1. Group Led classes are additional classes if entries justify them. Horses shown in group classes must be registered ASH and eligible to be shown. At the Committee's discretion and stipulated on the programme, group entries may consist of two or three horses. These group classes are as follows:
  - 3.1.1. SIRE'S GROUP – Horses of any age/sex, all by the same sire, presented as one entry. The sire must be registered with the ASHS, even though not shown. The entry must be made in the name of the sire and the results will be recorded to the relevant sire. The same member need not own all horses shown.
  - 3.1.2. DAM'S GROUP - Horses of any age/sex, out of the same dam, presented as one entry. The dam must be registered with the ASHS, even though not shown. The entry must be made in the name of the dam and the results will be recorded to the relevant dam. The same member need not own all horses shown.
  - 3.1.3. BREEDER'S GROUP - Horses of any age/sex, all bred by the one member, presented as one entry. The breeder must be a financial member of the Society. The entry must be made in the name of the breeder and the results will be recorded to the relevant breeder. The same member need not own all horses shown.
  - 3.1.4. OWNER'S GROUP - Horses of any age/sex, currently owned by the one member, presented as one entry. The owner must be a financial member of the Society. The entry must be made in the name of the owner and the results will be recorded to the relevant owner.

## 4. NOTES FOR COMPETITORS

- 4.1. For the young, or not so young, showing offers a challenge. Led classes can begin at your local Branch show and as your skills increase you can progress and perhaps one day compete with the best at a Royal Show or the National Show.
- 4.2. Presentation plays a major role in Led classes and first impressions are important. Take the time to present yourself and your horse in a clean and tidy condition. It takes a great deal of time, effort and dedication to be successful. It is a good idea to watch the professionals and take notice how they and their horses are turned out.
- 4.3. Quality food and proper exercise are the first steps to ensuring that your horse looks his best. Rugging, grooming and stabling are also important factors when preparing your horse for Led classes.
- 4.4. When competing, stand your horse squarely on all four feet and keep the horse posed at all times.
- 4.5. Stay calm, confident and collected and remain attentive whilst keeping an eye on the Judge and the other horses in the event. At all times be courteous to the Judge and other competitors.
- 4.6. Be very critical of conformation in prospective show horses and choose the horse carefully. A badly conformed horse will appear ugly to a knowledgeable Judge and the show venture will be unsuccessful before it starts.
- 4.7. Led whips - show whips are permitted being no longer than 1m in length

## 5. JUDGING PROCEDURE

- 5.1. Judging begins when the horses are led into the ring. As the horses are being led into the ring the Judge stands back far enough to get an overall view of the horses entering. This allows an immediate assessment of the horses to be judged.
- 5.2. The horses should be worked around the ring as directed by the Judge. Competitors should avoid bunching in a group, so the Judge can see all the horses competing. A large class should be led on the circle for the Judge to select horses for an individual workout.
- 5.3. When the Judge has called competitors into the ring, they should form an orderly line from the right, leaving sufficient space between each horse so that the Judge can walk freely between the horses. No competitor should talk while waiting in the ring.
- 5.4. Horses are inspected closely for soundness and overall conformation. The front and back legs should be observed while the horses are lined up.
- 5.5. The next step is to have each horse walk and trot to the Judge's instructions.
- 5.6. The Judge should then observe the action and behaviour of the horse.
- 5.7. Upon completion of all workouts the Judge will place the horses in order of merit.
- 5.8. Patterns may be adapted at the discretion of the Judge according to local conditions.
- 5.9. Patterns must be judged in their entirety for a single score OR each transition and movement scored individually for a total score, except in exceptional circumstances.
- 5.10. Type, presentation and overall impression to be the first point of consideration on ALL patterns when scoring
- 5.11. NOTES FOR JUDGES
  - 5.11.1. A Judge must know all the external points of a horse and have a good understanding of the characteristics that define the ASH breed.
  - 5.11.2. A Judge must know how a horse with excellent conformation should look and develop a mental image of the ideal ASH. The ability to judge will improve if you can compare the horse you see with the ideal image you have fixed in your mind.
  - 5.11.3. The Judge should be able to recognise any conformation faults of a horse, including straightness of legs, length of bones, angles of joints, desired muscling, length of neck and back and overall balance.

- 5.11.4. Allowances should be made for minor blemishes due to previous injuries.
- 5.11.5. Horses showing conformation faults in Led ASH classes should score lower in the Judge's mental assessment, i.e., splay-footed, knock-kneed, narrow front, base wide, bow-kneed, calf kneed, cow hocked, pastern too straight, straight shoulder, ringbone, and the like.
- 5.11.6. The horse's movement should be rhythmical while moving in a straight line. Horses showing movement faults should score lower in the Judge's assessment, i.e., brushes legs, paddles, stringhalt, short stride, stiff action, and the like.
- 5.11.7. The Judge may ask a competitor to leave the ring if their horse becomes unruly at any stage or is dangerous to other competitors. The horse should not buck, bite, kick or refuse to comply.
- 5.11.8. The horse should be relaxed and not show signs of nervousness. Young horses may show some signs of tension when taken to initial outings – anxiety, jumpy, pawing, whinnying, etc.
- 5.12. Judging procedure for supreme events or events with two or more Judges:
  - 5.12.1. Where two or more Judges combine to Judge a singular event (i.e. Supreme), a point scoring system will be used. The number of horses in the event will determine the number of points allocated. (i.e., horse awarded third place receives 3 points.) The Judge's scores are then added up and the horse with the lowest score is deemed the winner of the event. In the event of a tie each Judge gives each horse a score out of 100. All scores are then added and the horse with the highest score is deemed the winner of the event.

## TIME TRIAL EVENTS

### 18. TIME TRIALS

- 18.1. Time Trials are a test of the horse's ability and tractability. They were originally designed as a competition in times of cattle shortage. Today they are accepted as a test of a horse in another discipline, as part of a challenge event or as an event in its own right.
- 18.2. The objects that are encountered in time trials should reflect only those types of obstacles that may be encountered in the bush or country. Hessian walls, plastic tarps, the act of backing through rails and so on, are not obstacles normally encountered. While they may reflect the horse's training to accept unusual elements, they do not necessarily test a horse's ability to perform difficult manoeuvres at fast pace – which is what the time trial is all about.
- 18.3. The modern time trial is designed with walk and trot sections and there are penalties for each broken stride. These sections ensure that the horse has a cool frame of mind.

### 19. TYPES OF CLASSES

- 19.1. Committees should set classes to suit the majority of Branch members. A suggested break-up of classes is as follows:
  - 19.1.1. AGE Under 4 yrs, 4 yrs old, 5 yrs and Over.

- 20.2. Each horse may have only one start in the event. A flying start is permitted in some patterns.
- 20.3. Depending on the pattern, penalties or disqualification may result from a break of pace, a knocked down peg, knocking over an obstacle, etc. A broken peg will be deemed knocked down.
- 20.4. Disqualification will result from taking an obstacle in the wrong direction or not following the prescribed pattern.
- 20.5. The Judge will record a time and assess the competitor's completion of the course for penalties. The time in seconds, plus penalties will become the score. The lowest score will be determined as the winner.

### 21. TACK AND ATTIRE FOR TIME TRIAL EVENTS

- 21.1. The competitor's attire must be neat and presentable at all times. Competitors must be mounted for presentations.
- 21.2. The standard for the rider's attire is as follows:

- 28.1. The First Judging Phase:
  - 28.1.1. Jumping is always judged first and there are 50 marks for jumping and 10 for style and manners while jumping. Knocking down a fence incurs 10 penalties; the first refusal costs 15 penalties; the second 20 and the third disqualification. A complete turn in front of the fence counts as a refusal. A fall of horse or rider incurs elimination. In this phase judges expect the horse to jump the course fluently and smoothly, neither going right into the bottom of the fences, nor standing too far off. As manners are taken into account, pulling, jibbing or a disobedience of any kind will be penalised.

## 2. NATIONAL SNAFFLE BIT FUTURITY

- 2.1. The National Snaffle Bit Futurity is a contest held over three sections. It has been designed to showcase the ability and temperament of the Society's two year old horses. The three sections consist of Led, Hack, and Utility. Horses are allocated a score in each section and these scores result in an overall score for the event. Horses must record a score in each section to be eligible for an overall score.
- 2.2. The event is only available for two year old Registered Australian Stock Horses owned by Financial Members of The Australian Stock Horse Society. All sections of the National Snaffle Bit Futurity are judged by one Judge per section. The Led, Hack and Utility scores are added together to give an overall score.
  - 2.2.1. Horses in the **Led Section** are assessed on their type, conformation, temperament, movement/balance, soundness and presentation (the Standards of Excellence). The horse should show the qualities and type which define the breed. The horse's body should be balanced in accordance with its size and the horse should possess a calm temperament and good nature.
  - 2.2.2. During the **Hack Section** the horse should be calm, supple, obedient and move freely. The workout should demonstrate the horse's basic training in a fluent and flowing motion. The horse should be relaxed and give a comfortable ride.
  - 2.2.3. The **Utility Section** tests the versatile qualities of the horse. The horse should complete each obstacle in a confident, relaxed and calm manner, skilfully placing their feet whilst being responsive to the rider's commands. The workout could consist of walk, trot and canter sections, side pass over an object, walk over a bridge, walk and trot over poles, jump a log, back through parallel poles or around a drum, from a canter – stop within a square and canter out of the square and the like.
- 2.3. The rider and/or handler must be a Financial Full, Youth or Participant Member of the Society. All sections must be completed with one rider/handler.
- 2.4. Each section must be completed in accordance with the selected pattern. In the event that a horse or rider falls or loses control in any section, the horse would be disqualified in that section and will not receive an overall score.
- 2.5. To be eligible for any awards each section must have been attempted, withdrawal will be at the discretion of the Committee.
- 2.6. Hack and Utility patterns for the National Snaffle Bit Futurity are advised in the Show Schedule.

### 3. NATIONAL FUTURITY

- 3.1. The National Futurity is a contest held over four sections. It has been designed to showcase the ability and temperament of the Society's three year old horses. Horses must record a score in each section to be eligible for an overall score.
- 3.2. The event is only available for three year old Registered Australian Stock Horses owned by Financial Members of The Australian Stock Horse Society. The horse should be relaxed and settled during the workout, be light on its feet, well balanced and responsive to the rider's commands, with little or no resistance to the bit.
  - 3.2.4. The course for the **Time Trial Section** may include jumping small obstacles, opening a gate, and the like. Although this is a timed event, some sections of the course may stipulate the horse's pace. Penalties may be given for break of pace, knocking over obstacles, etc.
- 3.3. The rider and/or handler must be a Financial Full, Youth or Participant Member of the Society. All sections must be completed with one rider/handler.

- 10.10. Once all judging cards are handed in, only then will the Horse Assessment Judge line the horses up in place order and the ribbon presentation done. The Horse Assessment Judge then has an opportunity to speak to the competitors about the placings.

  - 11.3.2. Continue left circle. At A simple change. Canter to right.
  - 11.3.3. Continue right circle. At A flying change. Canter to Left.
  - 11.3.4. Continue left circle toward C. At C haunch turn to right. Canter to D. Haunch turn to left.
  - 11.3.5. Canter to E. Stop. Back-up 4 paces. Walk to Judge.
- 11.4. The diagram of the pattern is as follows:

- 11.5. At the completion of each horse's pattern, the competitors are allowed 2 minutes per horse (timed) for assessment before the next horse will be judged. Provision for a general comment on each horse is provided on the card.
- 11.6. After the judging of the last horse, final assessment is made by the competitor before judging cards are finalised and handed in.
- 11.7. Once all judging cards are handed in, only then will the Horse Assessment Judge line the horses up in place order and the ribbon presentation will be done. The Horse Assessment Judge then has an opportunity to speak to the competitors about the placings.
- 11.8. The Horse Assessment Judge and the Competitor Assessment Judge will hand their judging cards to the Steward for scoring. If the Hormel Slide is being used, the Horse Assessment Judge will provide the Steward with the marginal scores between placings.

## 12. SCORING THE COMPETITORS

- 12.1. Hormel Slide – The Hormel Slide system of scoring is the most accurate and preferred.
  - 12.1.1. Horse Assessment Judge
    - 12.1.1.1. Under this system, after the horse judging segment is complete, it is necessary for the Horse Assessment Judge to grade the horse's difference by establishing a margin score between placings. The total of the three marginal scores must be higher than 3 points, but must not exceed 15 points.
    - 12.1.1.2. The slide assesses each competitor's incorrect decision depending on the Judge's margin between the horses placed and scores each competitor (out of 50 points) accordingly.
    - 12.1.1.3. Further details on the use of a Hormel Slide are provided when purchasing the slide.

- 12.1.2. Competitor Assessment Judge
  - 12.1.2.1. The judge assesses each competitor and scores them as follows; Competitor's presentation, approach to judging and suitability of comments – 10 points.
- 12.1.3. The points allocated by the Hormel Slide and the points allocated by the Competitor Assessment Judge are added together to achieve a final score. The competitor with the highest score will be declared the winner.
- 12.2. Manual Scoring System – If the Hormel Slide is unavailable, the following system is used:
  - 12.2.1. Horse Assessment Judge
    - 12.2.1.1. All placings in the same order as the Horse Assessment Judge - 90 points.
    - 12.2.1.2. 1st and 2nd placings correct, 3rd and 4th placings reversed - 70 points.
    - 12.2.1.3. 1st and 4th placings correct, 2nd and 3rd placings reversed - 50 points.
    - 12.2.1.4. 1st and 2nd placings reversed, 3rd and 4th placings correct - 30 points.
    - 12.2.1.5. Any two horses placed correctly but not in any of the above orders - 20 points.
  - 12.2.2. Competitor Assessment Judge
    - 12.2.2.1. The judge assesses each competitor and scores them as follows; Competitor's presentation, approach to judging and suitability of comments – 10 points.
  - 12.2.3. The points allocated by the Horse Assessment Judge and the points allocated by the Competitor Assessment Judge are added together to achieve a final score. The competitor with the highest score will be declared the winner.
- 12.3. To obtain a combined segment result, the competitor's final scores (after assessment) for the led and working segments are added together to obtain a combined score. The competitor with the highest combined score will be declared the winner.
- 12.4. In the event of two or more competitors being equally placed, the Horse Assessment Judge may ask the competitors to speak in relation to the horses presented and give an explanation of their placings. The order in which the competitors participate in this request is by drawing from a hat.

## 13. STATE YOUTH JUDGING FINALS

- 13.1. To be eligible for State Finals conducted by Management Councils, competitors must win a Youth Judging Competition at Branch level. If the winner is unable to participate in the State Final, the second placegetter becomes eligible to compete.

## YOUTH HANDLER CLASSES

## 15. JUDGING PROCEDURE

- 15.1. Youth Handler Classes are to be judged strictly on the handler's ability to show a horse in a led class. No consideration is to be given to the horse other than grooming and presentation. The horse is only a prop to show the ability of the handler.
- 15.2. The procedure for judging is as follows:
  - 15.2.1. The horse and handler enter the ring at a brisk walk as directed by the Steward. The horse is to be led from the near side. The horse must walk at the same pace as the handler - moving in a brisk, alert manner.
  - 15.2.2. When instructed to line-up, the handler must stand the horse squarely on all four feet and must present the horse in a position so as not to hinder the Judge's view of the horse at any time.
  - 15.2.3. The Judge will then call upon individual handlers to present their horses, and parade to his/her request. When turning, it must be to the right to give the Judge full view of the horse. Know where the Judge is at all times, so as not to obstruct his/her view of the horse.
  - 15.2.4. The handler must always keep position in the line and allow reasonable space between the horses on either side. If asked to change position in the line, the horse must be backed out of the line and approach the new position from behind.
  - 15.2.5. The handler must be alert and courteous and respond quickly to instructions from the Judge or Steward.
- 15.3. Unsportsmanlike behaviour may cause elimination.
- 15.4. This event will be Judged on the following guidelines:

- 15.4.1. The horse is to be clean and well presented. No consideration will be given to the horse's conformation and type.
- 15.4.2. The horse must be shown in a bridle with a snaffle bit that is well fitted, neat and clean. A show whip is permitted and must not exceed 1 metre in length.
- 15.4.3. The handler is to be well presented (coat not necessary). ASHS attire is preferred.
- 15.4.4. Showmanship to be judged on the handler's ability to show his/her horse.
- 15.5. In order to gain maximum points, avoid the following:
  - 15.5.1. Failure to recognise and correct faults of the horse's position.
  - 15.5.2. Kicking, hitting or having leg contact with the horse.
  - 15.5.3. Talking with other contestants.
  - 15.5.4. Failure of the horse to lead properly.
  - 15.5.5. Failure to stop the horse before turning when at a walk or trot.
  - 15.5.6. Failure to back the horse when necessary.
  - 15.5.7. Loud voice commands to the horse.
  - 15.5.8. Turning the horse in the wrong direction.
  - 15.5.9. Blocking the Judge's view of the horse.
  - 15.5.10. Causing the Judge to move to avoid being bumped or stepped on.

## **ASH RIDER CLASSES**

### **16. RIDER CLASSES**

- 16.1. Rider classes are to be judged strictly on the rider's ability to show a horse in a ridden class. No consideration is to be given to the horse other than grooming and presentation. The horse is only a prop to show the ability of the rider.
- 16.2. The Judge looks for a calm, supple and obedient horse that moves freely forward in all paces.

### **17. TYPES OF CLASSES**

- 17.1. Committees should set classes to suit the majority of Branch members. A suggested break-up of classes is as follows:
  - 17.1.1. AGE Under 8 years, 8 years and under 11 years, 11 years & under 13 years, 13 years & under 15 years, 15 years & under 18 years, 18 years & under 21 years.
- 17.2. Sex of horses and riders gender are NOT recommended as a break up of youth classes.

### **18. OTHER COMPETITION STYLES**

- 18.1. Other competition styles for hack classes are as follows:
  - 18.1.1. PLEASURE RIDERS - The horse must be ridden in a plain bridle with a snaffle bit. The rider must not wear spurs or carry a whip. It is optional that the reins are held in one hand only, however the age of the competitors should be taken into account. Emphasis should be placed on temperament, obedience and riding qualities. The winner of a Pleasure Rider class is not eligible to compete in championship classes.
  - 18.1.2. STATION RIDER - The horse and rider to be presented in suitable tack and attire. The horse should have an excellent temperament and be able to complete the activities in a relaxed manner.

## 19. NOTES FOR COMPETITORS

- 19.1. For the young showing offers a challenge. Rider classes can begin at your local Branch show and as your skills increase you can progress and perhaps one day compete with the best at a Royal Show or the National Show.
- 19.2. Presentation plays a major role in Rider classes and first impressions are important. Take the time to present yourself and your horse in a clean and tidy condition. It takes a great deal of time, effort and dedication to be successful. It is a good idea to watch the professionals and take notice how they and their horses are turned out.
- 19.3. Stay calm, confident and collected and remain attentive whilst keeping an eye on the Judge and the other horses in the event. At all times be courteous to the Judge and other competitors.
- 19.4. Rider whips - show whips are permitted being no longer than 1m in length

## 20. JUDGING PROCEDURE

- 20.1. The horses should be worked around the ring as directed by the Judge. Competitors should avoid bunching in a group, so the Judge can see all the horses competing. Competitors must be alert and be listening for orders from the Judge.
- 20.2. A large class should be worked on a circle, at a walk, trot and canter for the Judge to select about eight horses for an individual workout.
- 20.3. When the Judge has called competitors into the ring, they should form an orderly line from the right leaving sufficient space between each horse so that the Judge can walk freely between the horses. If there is a long wait, horses may be allowed to relax, but not the rider. No competitor should talk while waiting in the ring.
- 20.4. The Judge should inform the competitors of the required workout which should consist of walking, trotting and cantering. Depending on the level of competition, class or age of the competitor, the Judge may choose a workout which consists of the above paces or includes more difficult movements, i.e., extended paces, hand gallop, flying or simple change of lead, back-up, side pass, etc.
- 20.5. Competitors should at all times be courteous to the Judge, Steward and other competitors, and must never forget to offer their congratulations to all prize winners. Whether a prize is gained or not, competitors must stay in line until requested to leave the ring by the Steward. Remember, the judging is not finished until the ribbons are awarded. The competitors should not leave the ring until directed by the Judge or Steward.
- 20.6. Patterns may be adapted at the discretion of the Judge according to local conditions.
- 20.7. Patterns may be judged in their entirety for a single score OR each transition and movement scored individually for a total score.
- 20.8. When using patterns from the ASHS Pattern Book, markers may be used at the Judge's discretion.
- 20.9. Judging procedure for supreme events or events with two or more Judges:
  - 20.9.1. Where two or more Judges combine to Judge a singular event (i.e. Supreme), each Judge gives each horse a score out of 100. All scores are then added and the horse with the highest score is deemed the winner of the event.

# DRESSAGE

## 1. DRESSAGE

- 1.1. Dressage is a French word, which roughly translates as “training”. Dressage is gymnastics for horses and it requires the horse’s suppleness, co-ordination and obedience. All horses benefit from basic dressage training as it helps develop a horse to be more pleasurable, safe and comfortable to ride.
- 1.2. For those who have determination, patience and a love of horses, dressage offers many attractions. It entails the pursuit of perfection, with attention to detail being the basis for success.
- 1.3. A top class horse and rider performing dressage is the epitome of grace and elegance, which is the result of years of patience, dedication and training that has gone into gaining and mastering the expertise needed to compete at the highest level of the sport.

## 2. STANDARD OF COMPETITION

- 2.1. Dressage is a sport with a wide range of competitive standards. At the lowest level, tests are simple and offer opportunities for the inexperienced or part-time rider to compete, whereas the highest level of competition is for the specialist rider and tests involve complicated gymnastics.
  - 2.1.1. Preliminary Test (Level 1) - Involves basic paces and progressive transitions from one pace to another. Horses will need to be able to walk a straight line and trot and canter on a 20 metre circle.
  - 2.1.2. Novice Test (Level 2) - Requires 15 and 10 metre circles at the trot, serpentines of three equal loops at the trot, lengthening of stride at the trot and transitions that are less progressive.
  - 2.1.3. Elementary Test (Level 3) - The collected trot and canter are required, serpentines at either the trot or canter, simple changes, transitions directly from walk to canter, 10 metre circles at the trot and 10 metre circles at the canter. The simplest of the lateral movements, the shoulder-in at the trot, a counter canter and traverse.
  - 2.1.4. Medium Test (Level 4) - Requires collected paces, half pass at trot and canter, shoulder-in, traverse, extended paces, flying changes and walk pirouettes are also introduced.
  - 2.1.5. Advanced Test (Level 5) - The canter half pass, a canter serpentine of four loops with flying changes on the centre line. Canter pirouettes and a series of flying changes are also required.
  - 2.1.6. International Dressage Tests (Levels 6-9) – In Prix St George, Intermediate I, Intermediate II and Grand Prix levels, the tests are exactly the same wherever official dressage competitions are held throughout the world. Depending on the level, these tests require such movements as: the collected trot on a 6 metre circle, flying changes from every third stride to a series of 15 flying changes, canter pirouettes, canter half pass, the piaffe and the passage.
- 2.2. Branches may run dressage competitions. Horses that have an official EFA competition grading may only compete in the eligible standard or higher. Branches and Management Councils may combine the higher levels into one test, so any standard of horse is eligible to compete, i.e., Elementary and higher.
- 2.3. Two consecutive levels only may be ridden at National Championships, but at Branch and State Management Council competitions, three consecutive levels may be ridden, with the proviso that if there are too many entries then they be restricted to two levels.

### 3. BASIC RULES

- 3.1. In the event of conflict between Society rules and rules of other equestrian bodies hereafter referred to, precedence will be in the order set out as follows:
  - 3.1.1. The Australian Stock Horse Society (ASHS).
  - 3.1.2. The Equestrian Australia (EA).
  - 3.1.3. Federation Equestre Internationale (FEI)
  - 3.1.4. If problems arise, which are not clearly covered by ASHS rules, the Disputes Committee for the organising Branch will be called to adjudicate. The outcome, in the opinion of the Disputes Committee, should be to produce a fair result under the circumstances. In due course, the Disputes Committee will advise the Board, in writing, of the circumstances and action taken.
- 3.2. Callers are permitted at ASH. If you are not confident that you can remember the test, it is a good idea to have a caller. Make sure your caller stands at the mid-point of the long side of the arena and has a loud and clear voice. Each movement should be called so the rider has plenty of time to prepare for the transition.
- 3.3. Once the previous horse has completed the test, go around the outside of the arena to report to the Judge. Wait until the Judge has finished making comments on the previous entrant's test, then acknowledge the Judge who will check your name before you proceed to A. The Judge will signal to commence the test, usually with the car horn or a wave of hand, and you will then have a maximum time of one minute to commence the test.
- 3.4. All competitors should salute the Judge by lowering their right hand behind their right leg and giving a slight nod in the Judge's direction. The Judge will return the salute - usually a wave outside the car window, then you can proceed.
- 3.5. If you make an error on course, the Judge will let you know with a signal from the car horn or a wave of hand. When this happens, stop and walk quietly to the judge's car. The judge will explain where you made the error and tell you the correct movement. Then ride back to the point indicated and recommence your test. Errors on course will be penalised and four errors will mean elimination.
- 3.6. Between the time your horse enters and leaves the arena at A, your horse should remain with all four feet inside the arena. If all four feet of your horse leave the arena, you will be eliminated from the competition.
- 3.7. Copies of dressage tests are available from the EFA. Organising Committees should ensure that they have obtained copies of the tests prior to producing a programme. Committees should refer to the EFA rules for any information not covered in this booklet.

### 4. NOTES FOR COMPETITORS

- 4.1. Most riders should be able to take a horse to Medium level with a combination of work in a level paddock and occasional access to a full-sized arena, preferably with a well-defined boundary. It should be marked out in a rectangle not less than 20 metres x 40 metres or greater than 30 metres x 60 metres. Before attempting your first test you should understand the position of the markers and the geometry of the arena.
- 4.2. Before your first competition, make sure you allow yourself enough time to learn the tests. You will probably find as you practise your tests leading up to your first competition that there are certain areas you will need to work on. Identify these areas then spend time on mastering the techniques you used to teach the horse the movement or transition which is giving you trouble.
- 4.3. As competition dressage tests begin with basic movements then progress on to very difficult movements, your training should follow the same guidelines. Some points to remember:
  - 4.3.1. Be patient and consistent, as training is a long-term process.
  - 4.3.2. Master simple movements before progressing to more difficult ones.
  - 4.3.3. Vary your work-out so your horse does not get bored.

- 4.3.4. A training programme of around 45 minutes at least four days a week is recommended.
- 4.3.5. Take your horse for rides outside the arena to keep him relaxed and fresh.
- 4.3.6. Enjoy the training and competition.
- 4.3.7. Practise and take in as much information as you can by reading, listening and observing.
- 4.4. Two things that should be considered when selecting a horse are the quality of the horse's paces and its temperament. A horse with lovely paces can be very difficult and unrewarding to train if it does not have a good temperament. The horse has to be willing and able to accept the mental and physical disciplines involved in mastering the basics of dressage.
- 4.5. If your horse gets a fright and shies, don't panic. Stop, calm him down and then proceed with your test from the point where he misbehaved.
- 4.6. In order to ride the horse effectively and to assist him with his balance and position under saddle, your own position and aids must be correct. When asking a horse to perform the dressage movements, the rider is asking the horse to react on his command. Always try to be aware of your position in the saddle when you are mounted on your horse.
- 4.7. Allow yourself plenty of time to learn your tests, prepare and groom your horse if you want to be successful, but remember that competition should be fun, so relax and enjoy yourself. As you prepare for your first competition, aim to ride the test in a calm and relaxed manner.

## 5. HOW TESTS ARE MARKED

- 5.1. Dressage tests consist of a number of sections containing movements and transitions; for each section a maximum of ten marks can be awarded. The mark given signifies a standard, of which the scale is: 10 - excellent; 9 - very good; 8 - good; 7 - fairly good; 6 - satisfactory; 5 - sufficient; 4 - insufficient; 3 - fairly bad; 2 - bad; 1 - very bad; 0 - not executed.
- 5.2. At the end of the test marks are given for the general impression of the horse. The usual sections are the freedom and regularity of the horse's paces, his impulsion and his submission. There is also a section for the rider's position and seat and correctness and effectiveness of aids.
- 5.3. The number of movements may vary according to the level of competition so the total score for a test can vary between 210 and 310. Your final score is then converted into a percentage.

## 6. PRESENTATION

- 6.1. Acceptable tack is as follows:
  - 6.1.1. A dressage saddle or English style hack saddle is recommended, however, an Australian stock saddle is acceptable. Monkey grips are permitted.

    - 6.1.4.2. At Medium level, the horse may wear either a snaffle bit or a simple double reined bridle with cavesson noseband.
    - 6.1.4.3. At advanced level and higher, a double bit (bit and bridoon) is compulsory.
    - 6.1.4.4. Snaffle bits made of the same metal composition may have loose rings, egg butt style, D shaped or tom thumb. The mouthpiece may be straight, single or double jointed. Twisted bits and gag bits are not permitted.

- 6.1.5. Cavesson, Hanoverian, dropped and crossover nosebands are permitted but are not compulsory.

  - 6.2.6. Elastic sided short boots, boots worn inside trousers or top boots.

- 6.3. The horse, at the very least, should be clean. The horse's chin, ears, legs, mane and tail should be trimmed or be neatly presented.
- 6.4. Tack does not have to be new or extremely expensive. Older tack, well cared for, usually looks and fits better. Ensure that the tack is correctly fitted and does not rub or disturb the horse.
- 6.5. The rider attire should be neat; understated dress always gives a more professional appearance than the obvious and flamboyant.

## RECREATIONAL RIDES

### 9. HINTS FOR ORGANISERS

#### 9.1. PLANNING THE RIDE:

- 9.1.1. When considering the route for the ride, it is advisable to compile two routes. A short route for inexperienced riders and a longer route for more advanced riders.
- 9.1.2. When planning a ride, the possibility of inclement weather should be considered along with the resulting changes to environment. The Branch should cancel a ride, even at short notice, if any of the following circumstances exist: landslides, boggy terrain, lightning strikes, rising rivers, and the like. Safety of participants is paramount.
- 9.1.3. Plan to keep the ride away from busy main roads as much as possible.
- 9.1.4. Notify the police and local council of the ride and enquire about any special requirements that may relate to the ride.
- 9.1.5. Obtain an update on traffic laws that regulate the control of horses, riders and persons in charge of horse drawn vehicles. Negotiate a police escort when riding along a busy public road.
- 9.1.6. Obtain written permission from landowners before crossing private land.
- 9.1.7. The Branch needs to clarify the current insurance policy with the Society before planning the ride – especially when the ride incorporates private land, National Parks, public roads and the like.
- 9.1.8. The route of the ride should be well marked and checked for hazards. The route should be accessible by vehicles in the event of an accident or unexpected problem. It is recommended that coloured markers or ribbon should be used every 500 metres.
- 9.1.9. Each group of riders must have allocated adequate supervision. A group leader and at least two competent riders must be appointed. These riders must be capable of assisting inexperienced riders and/or handling a nervous horse.
- 9.1.10. The group leader should have two-way access to other groups and support vehicles.
- 9.1.11. Do not plan to start the ride too early when conditions may be foggy and plan the ride to finish early, well before dark, leaving sufficient time to settle the horses after the ride.
- 9.1.12. Every two hours of the ride, the organisers need to supply horses with adequate water and refreshments for riders.
- 9.1.13. In the event of a horse being exhausted, distressed or being a danger to riders, the organisers need to provide suitable horse transport and return the horse to the place of origin of the ride. It is recommended that during the ride a veterinarian is available on call, in the case of an emergency. If necessary, the Branch may organise a pre-ride veterinary check for all horses.

#### 9.2. ON THE DAY OF THE RIDE:

- 9.2.1. Check that all attending riders are current eligible members of the Society.
- 9.2.2. The minimum age for riders is eight years. Children under the age of eight years may only participate in the ride under parental guidance, and in a support vehicle.

- 9.2.3. Parents and guardians of riders, 8 years and under 15 years, are responsible for ensuring that the rider is accompanied by an adult during the ride. In the case of young riders, it is recommended that the accompanying adult lead the child at all times.
- 9.2.4. DOGS are not permitted on recreational rides.
- 9.2.5. It is the responsibility of the rider to do a safety check on saddlery before the start of the ride. Unsafe saddlery could prove very dangerous if a horse should take fright.
- 9.2.6. The organisers have the right to call on any rider to inspect their tack and attire and if found illegal or unsafe, the rider is compelled to remove or change the offending article before continuing on the ride.
- 9.2.7. All riders must comply with the following requirements:
  - 9.2.7.1. A hat with a broad brim or an equestrian helmet approved by the current Australian Standards Association or international equivalent. Riders under 18 years – refer to regulations on protective headgear.

  - 9.2.7.10. Spurs and riding crops are optional.
- 9.2.8. All participants must remain sober when riding or driving - you can be breathalysed.
- 9.2.9. If a large number of riders attend the ride, it is advisable for them to be split into small groups. Each group must not exceed 15 riders. When splitting people into smaller groups, the organisers must consider the rider's ability and the horse's fitness.
- 9.2.10. The ride for inexperienced riders should be restricted to a walk. The ride for advanced riders may include a trot or slow canter. For safety reasons, under no circumstances should any rider gallop or race other riders.
- 9.2.11. Do not continue the ride, on the road, in foggy conditions or after dark. If you are unexpectedly caught in the dark, leave the road as soon as possible and make alternative arrangements to get the riders and their horses to the place of origin of the ride.
- 9.2.12. Do not travel in a manner considered negligent, reckless or to endanger the safety of the public or cause genuine concern or injury to any person, animal or damage to property.
- 9.2.13. Do not trot on surfaces that may be slippery or cause concern. Don't canter on bitumen roads.

- 9.2.14. Remember to take the greatest care when crossing farmland or private property, look out for livestock and close all gates. Beware of water crossings, quicksand, rabbit and wombat holes.
- 9.3. HINTS FOR GROUP LEADERS:
  - 9.3.1. For the convenience of others attending the ride, it is suggested that group leaders wear a fluorescent vest for easy identification.
  - 9.3.2. Look and think ahead at all times. Be alert for possible hazards; avoid a situation involving danger or difficulty. If you foresee trouble then make a suitable detour.
  - 9.3.3. Place the quietest horses at the front, on the outside and at the rear of your ride. This shields nervous and less experienced riders and horses.
  - 9.3.4. Set a pace that is safe and comfortable for all members of a ride.
  - 9.3.5. Form single file in areas where the road narrows or bends or the traffic is very heavy.
  - 9.3.6. In the event of a horse being considered out of control or unsafe to others, arrange for a support vehicle to return the horse to the place of origin of the ride and place the horse in a safe yard.

## 10. HINTS FOR RIDERS

- 10.1. Do not travel in a manner considered negligent, reckless or to endanger the safety of others, cause genuine concern or injury to any person, animal or damage to property.
- 10.2. Riders should always keep a safe distance between them and the horse ahead (approximately 2 metres).
- 10.3. It must be expected that motor vehicle traffic will be encountered at any time on the roads. A person leading or riding a horse on a public road should exercise great care.
- 10.4. Do not straggle when riding across a major road — cross in a group at a brisk walk.
- 10.5. Do not exceed a walking pace around corners, across footways, bridges or street crossings.
- 10.6. Do not impede the progress of overtaking traffic. Move further to the left, providing always this can be done with safety.
- 10.7. Keep calm if a horse slips or falls and let the animal find its feet.
- 10.8. Do not upset your horse in traffic; the highway is no place to teach your horse discipline.
- 10.9. Ride on the left of the road and remember that vehicles move faster than you think.
- 10.10. Look to the right and left then to the right again before crossing a road or road junction. When the road is clear ride purposefully on, at a walk.
- 10.11. Obey "STOP" or "GIVE WAY" signs and traffic lights in the same way as motorists and give way to pedestrians.

# CODE OF CATTLE CARE

## 1. INTRODUCTION

- 1.1. This Code is intended to complement and support existing legislation. The staging of campdrafts and the conduct of those involved are subject to the relevant legislation requirements in each State.
- 1.2. The rules for the care, treatment and welfare of campdraft livestock are to be observed by all campdraft personnel at each campdraft affiliated with the National Campdraft Council of Australia (NCCA) and their member Associations.
- 1.3. If, for any reason, there is a conflict between the rules of competition and the code for the care, treatment and welfare of campdraft livestock then the latter shall prevail, without qualification.
- 1.4. Any competitor failing to comply with the animal welfare rules of the NCCA including unnecessary roughness to livestock during competition in the opinion of the judges shall be disqualified from the event.

## 2. POLICY STATEMENT

- 2.1. It is the policy of the NCCA that animals used in campdraft events shall be treated humanely and with proper consideration for their health and welfare.
- 2.2. The rules for the conduct of campdraft events shall be consistent with this policy and shall be specifically designed to prevent cruelty and minimise the risk of unintentional injury or mistreatment.
- 2.3. The voluntary Code of Conduct shall be binding on the NCCA, its officers, members and affiliated campdraft committees.

## 3. CAMPDRAFT CATTLE

- 3.1. All cattle used in campdrafting must be a suitable size and in a healthy, strong condition, as dictated by normal circumstances for open range cattle in that particular region.
- 3.2. Female stock in obvious pregnant condition must not, under any circumstances, be used in any campdrafting event.
- 3.3. Assembly of stock must be in stock-proof yards. All yards and loading ramps must be constructed and maintained to minimise stress or inconvenience.
- 3.4. All cattle presented by the Committee for use in competition must be fed and watered in accordance with normal husbandry methods for cattle in transit by droving or motor transport.
- 3.5. Shelter from heat, wind and cold is not considered necessary for cattle except in extreme conditions of climate.
- 3.6. At the completion of unloading stock a representative of the promoting committee to inspect stock and any injured animals are to be treated and placed in a situation to relieve stress as soon as practical.
- 3.7. During each and every event, a representative of the committee will supervise the use of stock to ensure the continued suitability of stock for use during such event.

- 3.8. Where an animal is deemed to be in a state of distress requiring euthanasia, the person responsible for the animal must ensure that it is carried out as soon as possible, humanely and results in immediate death. Euthanasia must be performed only by persons competent in the method used and licensed where appropriate.
- 3.9. In campdrafting events, cattle may only be used once at the same venue.
- 3.10. The Judge may order the removal from the camp of unsound or distressed cattle.
- 3.11. All horses shall be presented in body condition and soundness satisfactory to the judge of the campdraft. The Judge must disqualify from competition any horse not meeting the requirements.
- 3.12. The Judge must disqualify any competitor causing unnecessary distress to either horse or beast in any campdraft.

## **4. GENERAL ANIMAL WELFARE CONCERNS IN CAMPDRAFTING**

- 4.1. Poor preparation of arena surfaces.
- 4.2. Use of unfit and unsuitably trained horses for campdrafting events.
- 4.3. Overworking of cattle following the completion of Campdraft run.
- 4.4. Use of sharpened spurs. Tack and equipment used.
- 4.5. Use of inappropriate bits that cause unreasonable pain and suffering.
- 4.6. Campdrafts being run in excessively hot weather.

## **CAMPDRAFT COMPETITION RULES**

### **5. JUDGING - General**

- 5.1. Where there are differences between ASHS and NCCA rules, ASHS rules will take precedence.
- 5.2. When selecting a Campdraft Course, the Judges should try to set a course, which will allow competitors to compete in an attacking and attractive manner. Under no circumstances should a Judge attempt to set a hard or difficult course as this practice only produces sub-standard campdrafting, which is unattractive to spectators and is not in the best interest of promoting the sport.
- 5.3. The Judge should address the competitors prior to the commencement of a campdraft.
- 5.4. Maximum points are: horse work — 70 points; cut out — 26 points; course — 4 points, to give a total of 100 points.
- 5.5. The number of cattle in the camp will be left to the discretion of the Judge, cattle steward and cattle donor. It is recommended that there shall be a minimum of six head of sound stock in the camp at any time. The exception being the Junior Campdraft, 8 years & under 13 years, where there is only one (1) head of sound cattle in the camp.
- 5.6. Yard clearing and spelling procedures are to be specified at the beginning of the campdraft.
- 5.7. A competitor may discuss with the judge:
  - 5.7.1. Only course points or
  - 5.7.2. In a polite manner, aspects of the judge's ruling on their run.
- 5.8. THE JUDGE'S DECISION WILL BE FINAL.

- 5.9. When multiple Judges are used, individual scores should be announced prior to the aggregate score.

## 6. JUDGING – Cut Out/Camp

- 6.1. The Judge should order the removal from the camp of unsound or distressed cattle or cattle that may interfere with the competitor's cut out and immediately replace with the same number with sound cattle.
- 6.2. The competitor must not 'try out' or work a beast until instructed by the Judge to commence their cut out.
- 6.3. Once a competitor starts to work a beast, they accept it as sound.
- 6.4. If a Judge deems it necessary to interrupt a competitor's cut out, a fresh beast may be selected if so desired; the original beast chosen must first be removed from the camp and replaced with a fresh beast.
- 6.5. Cut out points will be held by the horse whether it scores outside or not.
- 6.6. Disputes over foul-ups at the cut out gate will be settled by the Judge.
- 6.7. In the event of the beast breaking out of the face of the camp before the competitor calls for the gate, they must follow it. If the Judge considers the competitor has been unduly disadvantaged and has not significantly contributed to the breakout, a re-run may be awarded.
- 6.8. In the case of a breakout of cattle from the camp, the number of replacement cattle is to equal the number of breakout cattle.
- 6.9. Where a re-run is awarded in relation to rule 2.7 and 2.8 the competitor shall *receive the lesser of the two cut out scores*.
- 6.10. In any run-off for cut out prizes, each horse's score must be announced as soon as the individual cut out is completed. A fresh beast must be added after each cut out.
- 6.11. A committee using the two-camp system must clearly state on their program that the system will be used and also advise any prospective Judge.
- 6.12. A cutout is not complete until both beast and rider have exited the camp through the front gate.
- 6.13. DISQUALIFICATION – A competitor will be disqualified for:
- 6.13.1. Losing the beast twice into the cattle or, at the discretion of the Judge losing control of the beast for the second time.
  - 6.13.2. Unnecessary delay while selecting a beast.
  - 6.13.3. Changing beast after being clear of the cattle.
  - 6.13.4. Calling for the gate with more than one beast in front of the horse and subsequently taking more than one beast out of the camp.

## 7. JUDGING – Horse Work/Course

- 7.1. The time limit for completion of course will be 40 seconds. The start of a run is when the horse exits the cut out.
- 7.2. The maximum points for the course will be 4 points. Points for the course shall be allocated as follows: 2 points for the first peg; 1 point for the second peg; 1 point for the gate.
- 7.3. The course shall be either left or right hand at the discretion of the Judge and should be set to allow attractive campdrafting suited to the particular arena's size and condition.
- 7.4. The competitor is allowed two attempts at each peg.

- 7.5. A missed peg must be completed before attempting the next peg.
- 7.6. In the event of a split peg it will be classed as a missed peg and a competitor be allowed a second chance at the peg and, if successful, will be allocated points for the peg.
- 7.7. The first peg must be completed in order for the competitor to receive horse work points. The first peg is completed when the line between the 1<sup>st</sup> and 2<sup>nd</sup> peg is recrossed. If the first peg is knocked down the run is terminated. However, if the second peg is knocked down by either horse, rider or beast the competitor shall "go on" to the gate and no, course points will not be allocated for the second peg or gate. If a gate peg is knocked down no gate points can be allocated.
- 7.8. In the case of a deliberate knockdown peg or deliberate split peg the competitor will be disqualified. Clarifications of a knockdown peg - Knockdown of a peg that has PVC pipe over electric fence post. When the PVC pipe is on the ground it is classed as a knockdown peg.
- 7.9. The line of the gate is a line parallel to the front of the camp, which passes through the left hand peg of the gate for a right hand course. At the Judge's discretion the gate may be offset.
- 7.10. The diagram below shows the line of the gate for a right hand course.

- 7.11. Only one attempt to complete the gate is allowed once the beast and competitor have crossed the line of the gate. If the attempt is unsuccessful the Judge shall terminate the round and score the competitor, provided that in the opinion of the Judge, the competitor has control of the beast.
- 7.12. If beast and competitor fail to cross the line of the gate, a second attempt to cross the line of the gate is required. On the second attempt, the beast and competitor must cross the line of the gate to be scored (time permitting).
- 7.13. A horse that clips a beast when changing sides shall not be penalised, however a horse that badly hits a beast over the hocks or runs up the rump of a beast will be disqualified.
- 7.14. In liaison with the Committee, a Judge will be allowed to restrict the number of faults a competitor is allowed in competition in the interests of safety, animal welfare or exceptional circumstances due to hold ups or time to complete the programme. Any protocols applied in the first round of any campdraft may be applied in the final of that campdraft.
- 7.15. Provided the first peg is completed, a competitor in control of his/her beast when time has lapsed, regardless of position on course, must be scored.
- 7.16. In the event of a beast being distressed or bailing up and attempting to horn a horse, the Judge shall terminate the round and score the competitor (provided the first peg has been completed).
- 7.17. Where the judge terminates an outside run due to interference or safety concerns and the competitor is awarded a re-start, the competitor will start again with the lesser of the two cut out scores with the original entitlement of cattle.

Novice Horses - A Novice horse is a horse which has won first prize in a Maiden, Novice, Ladies or Restricted Campdraft and remains a Novice until the horse has won a further three Novice Campdrafts. A horse that has won an Open Campdraft ceases to be a Novice. A horse can win four Novice Campdrafts if it has not won first prize in a Maiden. ALL Associations will implement from the start of each Associations points year. Once a horse has broken status in their Association that status is carried through to ALL Associations.

The status of a horse, winning a Campdraft will be determined by the highest class of horse that competes with the exception of Juniors, Juveniles, Ladies, Old Buffers, Associates and Encouragement Campdrafts. The winner attains the status of the highest class of horse participating e.g. if one Open horse competes then it is classed as an Open Campdraft.
- 9.5. The first round of any Campdraft must be completed before any winner can be decided. - 9.6. As a positive response to committees that wish to run a cattle-type contest without damage to a horse's status, the NCCA will accept the following types of contest without any penalty to the winning horse:
  - 9.6.1. Cattle Working Contest — Contest 1
    - 9.6.1.1. If cut out and horse work points are allocated by the Judge of the contest then both the first and second pegs must be removed from the course. The gate is optional to the committee.
  - 9.6.2. Cattle Time Trial — Contest 2

accordingly in horse work points. It will be up to the Judge to determine when a rider has lost control and end the work.

## TEAM YARDING

### 13. RULES

- 13.1. A team consists of three riders.
- 13.2. Announcer to advise the collar colour, or the cattle identification number, as the first competitor crosses the starting line.
- 13.3. Within a two minute time limit, a team will attempt to cut out from the mob and yard three (3) head of cattle with the same assigned colour or identity number. A 30 second warning bell should be given prior to the end of the run.
- 13.4. Once sufficient teams to fill the placings, have recorded a time for yarding their three assigned head of cattle, the time limit will continue to reduce during the event, to the time recorded by the lowest placed team, i.e., team in 5<sup>th</sup> place.
- 13.5. The starting line will be either in the centre of the arena or can be on the yard side of centre. All cattle must be behind the starting line before time begins.
- 13.6. Time for a run commences when the first of the three horses crosses the starting line.
- 13.7. The yard will be located either in the centre or to one side of the arena.
- 13.8. The yard to be approximately 16ft (4.8 metres) wide and at least 16ft (4.8 metres) deep with one 8ft (2.4 metres) wing.
- 13.9. The yard and the end of the wing to be a minimum of 12ft (3.6 metres) from the fence line.
- 13.10. A team can call for time only once.
- 13.11. To call for time one rider must stand in the gateway and raise his/her hand after some, or all, of the assigned cattle are yarded.

- 13.13. Time cannot be given until the assigned cattle are in the yard and all other cattle are behind the starting line.
- 13.14. No time will be given if incorrect cattle are in the yard when time is called.
- 13.15. A team exhibiting any unnecessary rough handling or riding into the mob at excessive speed, may be disqualified.
- 13.16. No whips can be carried into the arena. No hitting of cattle with any object will be allowed.

- 13.22. An elected disputes committee must be available to deal with any breach of rules or protest.

## 14. LAYOUT OF TEAM YARDING ARENA

### **ASHS – EVENTS HANDBOOK**

NCCA – Code of Cattle Care and Campdraft Competition Rules, ASHS – Team Yarding and Station Cutting  
Section 9 V1.0 – Page 10

## STATION CUTTING

### 15. WHAT IT'S ABOUT

- 15.1. To select a single steer from the mob – gently guide it into the centre of the arena and then with lightning fast starts and turns, prevent it from ducking past the horse and escaping back to the safety of the mob.
- 15.2. Cutting out cattle from a mob is a necessity in the beef producing areas of outback Australia where station hands overcome isolation and the lack of facilities to separate individual cattle for branding, market, medical treatment or drafting.
- 15.3. In the controlled environment of an arena, it developed as an event, known as Station Cutting. The event comes alive in a test of intelligence, training and skill. In competition, the horse and rider must work together as a team in demonstrating their cattle handling skills.
- 15.4. The horses are specially trained and are known for their athletic ability and good temperament. Station Cutting offers excitement for competitors and spectators alike.

### 16. JUDGING THE COMPETITION

- 16.1. The event begins as horse and rider cross the time line and move quietly towards the mob, deliberately and without hesitation. Competitors have a maximum time limit of two minutes to complete their work.
- 16.2. The rider may use two hands on the reins and have light contact with the horse's mouth whilst selecting and working the beast. Once the beast is isolated from the mob and in the working area, the rider should allow the horse more freedom to demonstrate its skills.
- 16.3. The horse should match the beast's every move to prevent its natural inclination to return to the mob. The horse should show the ability to react instinctively to the beast's movements, with minimal direction from the rider.
- 16.4. Competitors are allowed a maximum of three head of cattle to work. The competitor may quit the beast when:
  - 16.4.1. The beast is under the competitor's control,
  - 16.4.2. The beast is obviously turned away, or
  - 16.4.3. The beast is lost behind the turn back horses.
- 16.5. The horse should not lose his working advantage by going past a working beast.
- 16.6. The competitor will cease being judged once three beasts have been worked or the time limit has expired – whichever occurs first.
- 16.7. Once the time limit has expired, a bell or whistle will be sounded and the competitor must cease work immediately.
- 16.8. The Judge will evaluate the competitor's work as follows:
  - 16.8.1. The challenge put forward by the beast – the speed and determination of the beast to return to the mob.
  - 16.8.2. The horse's instinctive reactions and ability to block and hold the beast in the working area away from the mob.
  - 16.8.3. Errors in judgement by the horse or rider during the competition.
- 16.9. The competitor will be scored out of 100 points. The competitor with the highest points will be declared the winner. In the event of two or more horses having equal top points, a run-off will be required to determine the winner.

## 17. SCORING THE EVENT

17.1. The event will be scored out of 100 points to be divided as follows:

17.1.1. Cut out 25 points

17.1.1.1. The horse and rider's ability to cut out the chosen beast and move it to the working area as expeditiously as possible without causing disturbance to the mob.

17.1.1.2. The horse and rider's ability to enter the mob quietly with very little disturbance to the mob or to the beast brought out.

17.1.1.3. The horse and rider's ability to cut out the beast toward the working area to commence competition.

17.1.2. Control 25 points

17.1.2.1. The horse and rider's ability to keep the beast in the centre of the working area.

17.1.2.2. A horse that works the cattle smoothly and retains the working advantage.

17.1.2.3. The horse driving the beast a sufficient distance from the mob to assure that the mob will not be disturbed.

17.1.3. Degree of Difficulty 25 points

17.1.3.1. How fast the beast moves in its efforts to escape from the working area, coupled with how close the horse has to get to the beast in its efforts to keep it in the working area.

17.1.4. Eye Appeal 25 points

17.1.4.1. Overall impression of how the horse and rider looked and how correctly they performed the above tasks.

17.1.4.2. A horse that works the beast in a smooth and effective manner with minimal assistance from the rider.

17.2. The points for the four categories above are added together and the total number of penalties is deducted to obtain a score.

## 18. PENALTIES

18.1. The competitor will be penalised each time the following occurs:

18.1.1. Minor penalties – one point

18.1.1.1. Any noise directed by the contestant towards the mob or beast.

18.1.1.2. A horse being visually cued by the rider.

18.1.1.3. A horse losing the working advantage, by going past the working beast.

18.1.2. Intermediate penalties – three points

18.1.2.1. Each time a horse scatters the mob while working a beast or picks up other cattle through the fault of the horse.

18.1.2.2. The competitor will be penalised each time the back or side fence actually stops or turns the beast being worked.

18.1.2.3. Quitting a beast not under the competitor's control.

18.1.2.4. The horse being excessively spurred or spurred on the shoulder.

- 18.1.2.5. The horse pawing, biting or kicking at cattle.
- 18.1.3. Major penalties – five points
  - 18.1.3.1. The horse loses the beast back into the mob.
  - 18.1.3.2. Failure to separate a single beast after leaving the mob.
  - 18.1.3.3. Changing cattle after a specific commitment.
  - 18.1.3.4. A competitor who, in the opinion of the Judge, continues to work a beast after the time limit bell or whistle has sounded.
- 18.1.4. Elimination
  - 18.1.4.1. At the Judge's discretion, a competitor may be eliminated for horse abuse or excessive disturbance to the mob or mistreatment of cattle.
  - 18.1.4.2. If a horse's tail turns towards the beast being worked.
  - 18.1.4.3. When a rider falls from a horse and/or the horse falls to the ground.
  - 18.1.4.4. Illegal tack.

## 19. TACK AND ATTIRE

- 19.1. Horses must be ridden in a bridle with a snaffle bit. The bridle shall have no noseband or head checks, running reins, running rings or any device giving the rider extra control over the horse.
- 19.2. Australian style stock saddles are preferred (stirrups and leathers optional style). Fender saddles are permitted. Western saddles or saddles with a horn are not permitted.

## 20. CATTLE

- 20.1. It is important that the cattle are in good physical condition and should weigh 220 kilograms or more. Yearling and two year old cattle are quite acceptable.
- 20.2. Cattle, which have previously been used for a cutting event, should not be used.
- 20.3. The committee should allow a minimum of two and a half cattle per competitor, per round. Cattle, at the commencement of a round, must be considered fresh.
  - 20.3.1. The number of cattle in the arena will depend on the size of the arena. Committees should consider the number of cattle that fit safely into the arena (between 15 and 25 cattle). Then calculate how often the cattle should be replaced with fresh cattle (2½ cattle per competitor). Committees may adopt the following guidelines for the number and how often the cattle should be changed:
    - 20.3.1.1. 15 cattle in the arena –change cattle every 6 competitors.
    - 20.3.1.2. 20 cattle in the arena – change cattle every 8 competitors.
    - 20.3.1.3. 25 cattle in the arena – change cattle every 10 competitors.
  - 20.3.2. To calculate the number of cattle required for the event, Committees may adopt the following:
    - 20.3.2.1. Firstly, select the number of arena cattle available for the competition to obtain the cattle change number (as shown above). Divide the total number of competitors for the event by the cattle change number. Round the number up (if necessary), then multiply the new number by the number of cattle in the arena. For example:

20.3.2.1.1. Competitors 55, Arena Cattle 20, Cattle Change 8

Total number of competitors	55
Divided by - How often the cattle change occurs	8
Sub Total	6.875
Sub Total number – Rounded up	7
Multiply by - Number of cattle in the arena	20
Total number of cattle required for the event	140 head

## 21. DUTY OF TURN BACK RIDERS

- 21.1. The competitors are responsible for providing their own turn back riders. Depending on the size of the arena, two or four turn back riders may be required.
- 21.2. Turn back riders are required to settle the cattle prior to the competitor crossing the starting line.
- 21.3. The duty of turn back riders is to provide the competitor with ample opportunity to separate the beast from the mob. Once the beast is separated, the turn back riders, positioned in front of the working area, should block the beast in such a way that the competitor has an excellent opportunity to show the horse's potential.
- 21.4. Any excessive action by the turn back riders to help the competitor (i.e., saving a major penalty from occurring) will be dealt with as a reduction of points for the competitor, even though there is no specific penalty for this action.

  - 13.4.4. Conflict of Interest - No Official Measurer or any person assisting the Measurer shall measure or assist/record the measurements for a horse in his ownership, a horse belonging to his family, a horse he is training or a member of his family is training, or in which he has a vested interest.
  - 13.4.5. Measurers shall not discuss the measurement of any horse except in an official capacity with Event Officials or other Measurers
  - 13.4.6. It is important at all times to be seen to be acting with complete integrity and responsibility and to ensure that any queries that may be raised are satisfactorily answered either at the time of measuring or in due course.
- 13.5. Records
  - 13.5.1. Height measuring will be recorded by the Society in its electronic database and owners/handlers will be provided with an official height certificate on the day it is performed. The venue, date, name of Official Measurer and measurement type (Annual/Limited/Life) will be recorded against the registered horse’s details.
  - 13.5.2. Measurement Types consist of:
    - 13.5.2.1. Annual Measurement - Horses aged 5 years and over - The Annual Measurement is valid for 12 months from the date of measurement. A horse may be re-measured for an Annual Measurement a minimum of nine (9) calendar months after the date of the previous Measurement.
    - 13.5.2.2. Limited Measurement - Horses aged under 5 years - The Limited Measurement is valid for 6 months from the date of measurement. The Measurement is automatically cancelled immediately once a new Measurement is issued

- 13.5.2.3. Life Measurement - Life measurement may be permitted for horses that have reached 8 years of age and have 3 consecutive official measurements in the same height division with one of those measurements being completed by an ASHS official measurer.

#### 13.6. Measuring Area

- 13.6.1. The design of the measuring stick and the use of the stick shall be approved by the Board.
- 13.6.2. The ASHS Measurer carrying out the measurement has the responsibility that the stick he/she uses is an accurate one. The stick must be fitted with at least one spirit level and must be shod with metal.
- 13.6.3. All measuring must be undertaken on a flat concrete surface which has been laid in a horizontal plane. The surface should be flat to within 0.25" (6mm). The entire area of the surface shall be required to conform to these specifications
- 13.6.4. The measuring surface should preferably be located in a quiet area free from avoidable disturbances and distractions which may unsettle the horse

#### 13.7. Presentation of the Horse

- 13.7.1. The ASHS Measurer carrying out the measurement must identify the horse against its ASHS registration papers.
- 13.7.2. The Measurer will introduce themselves to the horse handler and advise that the horse handler must stay with the horse and observe all proceedings at all times until the measuring is complete
- 13.7.3. It is the responsibility of the owner, and in his interest, to ensure that the horse is well-handled, accustomed to the application of a measuring stick, and correctly prepared for measurement
- 13.7.4. The owner (if not the handler) may also observe the measurement, however other persons may not crowd the measurement area and surrounds. Directions from the Measurer in this regard must be followed
- 13.7.5. At the time of measurement, if in the opinion of the Measurer
  - 13.7.5.1. The horse is unfit to be measured for any reason, or
  - 13.7.5.2. The horse presents evidence of improper preparation (this includes shoes and hooves, both of which must be of adequate thickness to compete), or
  - 13.7.5.3. The conditions for measurement are unacceptable, the owner shall be informed that the horse will be measured at a later date, when it is in a fit condition to be measured. The Measurer's decision as to fitness and preparation for measurement shall be final and there is no appeal against this decision.

#### 13.8. Measurement of the Horse

- 13.8.1. Prior to commencing it is necessary for ASHS Measurers to complete a preparation check list:
  - 13.8.1.1. Check the measuring site is level, and clear off any dirt or debris
  - 13.8.1.2. Check the rails of the Measuring Stand to ensure that they are secure
  - 13.8.1.3. Check that removable rails are available for limiting the horse's movement forwards or backwards whilst in the Measuring Stand
  - 13.8.1.4. Check that the Measuring Stick, if fixed, is securely held by fixing bolts and nuts and is perpendicular. If the Measuring Stick is portable checks need to be made to ensure that it is correct
  - 13.8.1.5. Check the height of the reading on the Measuring Stick is accurate by measuring from the underside of the measuring arm when in a

horizontal position to the floor with a standard length pole with two level bubbles so it can be held vertically (i.e. 15hh reading on Measuring Stick measures at 152.4cm)

13.8.2. Shoes

- 13.8.2.1. The horse may only be measured either with all four shoes, two front shoes or without shoes. Horses with only hind shoes, or with one front shoe missing will not be measured.

13.8.3. Handling of the Horse

- 13.8.3.1. The horse should be handled quietly and allowed to relax before measurement is attempted. Relaxation has shown to produce significant changes in height
- 13.8.3.2. The time taken to check the identity of the horse and check for signs of improper preparation will usually be adequate time for the horse to relax (approximately 5 minutes)
- 13.8.3.3. In the event of a horse not relaxing or becoming unsettled the Measurer, at his/her discretion, may request that the horse be re-presented at a later time to give the horse the opportunity to relax and settle

13.8.4. Positioning of the Horse

- 13.8.4.1. The horse must be positioned for measurement with the front legs parallel and perpendicular; the toes of the front feet should be in line.
- 13.8.4.2. Both hind feet must be taking weight and as near perpendicular as possible; the toes of the hind feet should be not more than 15 cm out of line with each other
- 13.8.4.3. The poll must not be lower than the highest point of the wither at the time of measurement

13.8.5. Measurement of the Horse

- 13.8.5.1. The horse owner must have a clear view of procedures and be given an explanation of each step of the process
- 13.8.5.2. The application of a twitch or a "tinker's grip" (skin twitch) is not permitted, nor is any other touching of the horse that is deemed unnecessary by the Measurer
- 13.8.5.3. The measurement shall be taken at the highest point of the wither
- 13.8.5.4. The measuring arm should be brought to the highest point quietly and gently so as not to unsettle the horse and must not be forced down on the wither but should touch gently
- 13.8.5.5. Prior to reading the height of the measuring stick it is important to constantly check the position of the poll to ensure it is not lower than the wither and that the horse is standing with weight evenly distributed over all legs

**ASHS – EVENTS RULES & REGULATIONS**

ASHS National Championships  
Section 10 V12.4 – Page 8

- 13.8.5.6. If the height indicated would necessitate re-classification of the pony/horse/galloway, special care must be taken to ensure that the horse is given every opportunity to fully relax.
- 13.8.5.7. The horse shall be measured twice only and shall spend a maximum of 10 minutes in the measuring area on each occasion. Where a second measurement is required the horse shall be returned to the Measurer no later than 1 hour after the time of the first measurement. This period may be shortened or extended at the discretion of the Measurer
- 13.9. Protests & Appeals
  - 13.9.1. The owner of a horse has the right to appeal to the National Show Committee against an Official Measurement prior to competing.
  - 13.9.2. See the Society's Event Rules & Regulations regarding Protests at the National Show for further information. See 11 Protests above.

## **14. HIGH POINT HORSE OF THE SHOW**

- 14.1. EQUAL PLACINGS
  - 14.1.1. Equal placings can be awarded at National level only in minor placings. Points from both placings are added together and divided equally between the tied place getters.

## **NATIONAL YOUTH SHOW**
